

GENYSIS IQ

AI SERVICES COMPENSATION PLAN

REFER. BUILD. EARN.

Marketers create traffic. AI creates sales. Genysis IQ delivers services.

How the model works

Every independent marketer receives a personalized Genysis IQ AI website. The marketer refers business owners to the site; the AI evaluates their needs, recommends appropriate services, answers questions, and facilitates the purchase. Genysis IQ's internal team completes and delivers the service. Commissions are earned when the applicable service or delivery milestone is completed and the related revenue is recognized.

1. Personal Customer Commission — 20%

A marketer earns 20% of Commissionable Revenue from every customer personally referred through the marketer's assigned website, QR code, or referral link. The referring marketer remains associated with the customer for eligible future and recurring services, subject to the customer-attribution policy.

2. Seven-Level Team Commissions

LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4	LEVEL 5	LEVEL 6	LEVEL 7
6%	2%	2%	2%	4%	4%	6%

The plan places strong commissions at both ends: 6% on personally sponsored marketers at Level 1 and another 6% at Level 7. Levels 5–7 represent 14% of the 26% total team-commission pool, deliberately rewarding duplication and organizational depth.

20%	26%	46%
PERSONAL CUSTOMERS	SEVEN TEAM LEVELS	STANDARD MAXIMUM

HOW COMMISSIONS ARE CALCULATED

One consistent formula across every AI and business service

Commissionable Revenue (CR)

Because services have different prices and delivery costs, commissions are calculated from the Commissionable Revenue assigned to each service—not automatically from its retail price. CR is the dollar figure remaining after applicable taxes, refunds, direct fulfillment expenses, and pass-through costs are accounted for.

$$\text{Customer Price} - \text{Excluded Costs} = \text{Commissionable Revenue (CR)}$$

Illustrative \$5,000 service

\$5,000	\$2,000	\$3,000
CUSTOMER PRICE	DIRECT / PASS-THROUGH COSTS	COMMISSIONABLE REVENUE

The referring marketer earns \$600 (20% of \$3,000 CR). Qualified uplines may collectively earn up to \$780 (26% of CR): \$180 at Level 1; \$60 each at Levels 2, 3, and 4; \$120 each at Levels 5 and 6; and \$180 at Level 7. Standard maximum field compensation is \$1,380, or 46% of CR.

Fast Start Bonus

During a new marketer's first 90 days, the personal sponsor earns an additional 4% of the new marketer's Commissionable Revenue from completed customer services. Combined with the regular 6% Level 1 commission, the sponsor can earn 10% during the Fast Start period. The temporary bonus brings the maximum potential field payout to 50% of CR.

When commissions become payable

- Reports and assessments: when the completed deliverable is issued to the customer.
- Websites and conversational AI: when the defined implementation milestone is completed or the service is activated.
- Penetration testing: when the authorized testing and validated report are completed.
- Recurring services: after each eligible monthly service period is completed.
- Larger projects: as defined delivery milestones are completed and their assigned CR is released.

The plan in one sentence

20% PERSONAL • 6-2-2-2-4-4-6 TEAM • 4% FAST START

Simple to explain. Built to reward customer referrals, early support, and seven-level depth.

This document describes a proposed compensation structure. Final qualifications, attribution rules, CR assignments, policies, and terms will be established in the official Compensation Plan and Policies & Procedures.
